JUST WHAT THE WORLD NEEDS

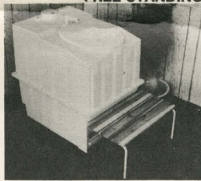

A TOILET YOU CAN'T FLUSH!

Designed in Sweden for full time use by families of 4-6, the Mullbank composting toilet is ideal for vacation homes. Mullbank is self-contained, completely odorless, non-polluting and uses no chemicals. Now you can avoid sewage problems in difficult locations like clay soils, rock ledges and lake shores at a fraction of the cost of conventional septic systems.

RECESSED

FREE STANDING

Mullbank is easy to install and easy to maintain—truly Tomorrow's Toilet!
